

Guardian

[Verse 1]

Since I was born, you were with me
I've grown up, you've raised me
I've grown up, you've raised me
You put that seed on me, on me
The seed named bonhomie
The seed called integrity
You've provided me with security

[Verse 2]

Life caused me tons of scars
But your hands always tried to
Heal those wounds
Your beautiful white wings appeased my soul
That once was a sad soul
With lifeless feathers
Lifeless feathers
But you converted them
Into newborns

[Chorus]

Hu-u-u guardian, guardian, guardian
I love you, guardian
Hu-u-u guardian, guardian, guardian
I'll always remember you, guardian
Hu-u-u guardian, guardian, guardian

[Post – Chorus]

Hug me for the eternity
I don't wanna lose you
Hug me for the eternity
I don't wanna lose you

[Verse 3]

Now I have strong wings
The ones that I always wanted
The ones that I should always have
Guardian, we faced a lot of battles
You lived a great hustle
Because of me

[Verse 4]

You were always covering me
Always gently
You fought the enemy
At the end of the fight, you mighty
You
You picked my feathers up
And put 'em on my back
While yours burned on my hands
And you didn't care about that
'Cause you wanted my heart
To remain pure

[Verse 5]

You should be in the whole galaxy
You're the strongest tree
A shielding shadow was always over me
Covering and covering from filthy things
You should take care of all the babies

[Chorus]

Hu-u-u guardian, guardian, guardian
I love you, guardian
Hu-u-u guardian, guardian, guardian
I'll always remember you, guardian
Hu-u-u guardian, guardian, guardian

[Post-Chorus]

Hug me with your paternity
I don't wanna lose you

Hug me with your maternity
I don't wanna lose you
Hug me with your serenity

[Bridge]

Your softness has nourished my soul for eternity, oh my guardian
Guardian of thousand stations, of hundred of bad behaviors of mine
I don't think that I'm ready
To be my own guardian or someone else's
But I'll have to continue
You prepared me to be a guardian
And I'll fulfill your promise to the universe
I will try to satisfy your final will
I'll try to walk the paths of virtue and happiness
Keeping all the evildoers and weirdos
Away from the corners, all those hounds of tındalos

[Chorus]

Hu-u-u guardian, guardian, guardian
I love you, guardian
Hu-u-u guardian, guardian, guardian
I'll always remember you, guardian
Hu-u-u guardian, guardian, guardian

[Outro]

Hug me for the eternity
